

NAME

get_version - get the version of the library

LIBRARY

codata (-libcodata, -lcodata)

SYNOPSIS

get_version()

DESCRIPTION

Get the library version.

Deprecated. It will be removed in the next major release 3.0 when the new codata constants will be released (2026). Use **codata_version(3)** instead.

RETURN VALUE

character(len=:), pointer :: fptr

Pointer to a string.

EXAMPLE

Minimal example:

```
use codata
implicit none
```

SEE ALSO

codata_version(3)
